Premium Lustre™ L8700 summer tan fruitwood,
Premium L8706 midnight maple,
Premium L8709 desert tan maple
Discover design flexibility with the widest selection of visuals and best overall performance in laminate flooring

Stylish and Sophisticated Beauty
Whether you choose to create a mood of exotic flair or a warm comfortable environment, you can count on rich color, texture, and the realistic look of hardwood flooring. Armstrong has the broadest selection of wood looks for your space.

Architectural Remnants™
NEW designs and colors! Create stunning rooms that demand attention with textural, rustic, reclaimed hardwood looks.

Coastal Living® Patina
Metal and concrete weathered by wind, sun and sea add an unexpected element to your space. The multi-width planks create a custom look.

Rustics™ Premium
NEW designs and colors! Standard and wide plank designs with rustic texture, dramatic graining, and natural aging reflect the latest trends in hardwood.

Premium Lustre™
High style meets function with stunning designs. High style meets function with stunning designs. This collection is one of our most durable laminate floors, capturing the highest AC rating (AC5).

Premium
Inspired by domestic and exotic hardwoods, this collection also features one of our most durable laminate floors with the highest AC rating (AC5). Use any one of these designs to create the perfect space!

High-End Value
Laminate flooring offers the look and feel of real hardwood in a budget-friendly alternative. Whether the desired finish is reclaimed barn or traditional, the authentic texture coupled with a low, medium or high gloss finish provides upscale visuals which reflect a specific and unique brand presence. The durable construction and great wear performance of the laminate make it a perfect solution for high traffic environments.

Sustainable Flooring Solutions
Armstrong Flooring is committed to systematically reducing our environmental footprint while providing innovative products and services that enable our customers to create sustainable indoor environments. All Armstrong laminate products are tested to meet indoor air quality standards for low VOCs.

Sustainability Facts

| Low-emitting composite wood: California Air Resources Board (CARB Phase 2 Compliant) | ✓ |
| ISO 14001 Plant Certification | ✓ |
| U.S. Green Building Council Member | ✓ |
| Canada Green Building Council Member | ✓ |
More than Just a Beautiful Floor
Beneath the striking beauty and realism of our designs is the quality and durability you expect from Armstrong.

Natural Beauty
Armstrong develops groundbreaking designs, brought to life in such brilliant detail they are often mistaken for the real thing. **MasterWorks Technology with VTx™** creates the most realistic visuals in flooring through the use of innovative texture and design.

Outer Protection
Commercial environments are no worry with Armstrong laminate flooring. Our **Commercial VisionGuard®** wear surface provides the ultimate protection against scratches, surface spills, stains, fading, scrapes and wear-through, making cleaning stress free.

The higher an AC rating — AC1 through AC5 — the better the wear resistance and durability of the product. The entire collection of Armstrong commercial laminate floors has an abrasion test rating of AC4 or AC5.

Inner Strength
All Armstrong commercial laminate floors are built around the **HydraCore™Plus** layer, which helps provide stability, lasting durability and moisture resistance. It gives laminate floors a more substantial wood feel and the optimum in sound absorption.

Easy Installation
Armstrong laminate installs over nearly any existing floor with no mess and no hassle. **Lock&Fold®** is the fastest and easiest laminate installation available — just lock and fold and your floor is ready to enjoy. For full warranty coverage, we require the use of **Quiet Comfort™ Premium Underlayment** for all installations.

Pulling product from at least three cartons during installation will minimize pattern repeats of the plank visuals and maximize aesthetics.

Designed to Perform

- **Commercial VisionGuard** wear layer — protects against scratches, surface spills, stains, fading, scrapes and wear-through
- **MasterWorks Technology with VTx** design layer — offers the most realistic visuals in flooring
- **HydraCore Plus** layer — ensures stability, lasting durability and moisture resistance
- **Balancing Layer** — provides balance and moisture resistance
- **Quiet Comfort Premium Underlayment** — provides superior sound absorption and a seamless moisture barrier
Design Matters
At Armstrong®, we take extra care to make sure the latest technology and best techniques are used to enhance our designs. We carefully determine what surface texture, edge treatments, and gloss level will bring our floors to life, making them authentic and realistic. We spare no detail to make sure all laminate flooring visually and texturally represents the material it replicates.

Texture
Many types of embossing techniques are used to create the best surface texture for each design.

Embossed-in-register – A dramatic level of realism is created by accentuating the texture aligned with the design images. Enhancing textures such as knots, chatter marks, and wood grains are key to realistic replication.

Overall – Texture is applied over the entire surface enhancing the design.

Hand-scraped – A soft to heavy hand-scraped wood effect, including chatter marks, depending on the design.

Ends & Edges
The ends and edges on individual planks give a room that special touch.

Micro End/Micro Edge – A small bevel is created to delineate each plank when installed next to each other. The bevel is small enough to enhance the edge and the end of the plank, but not large enough to collect dirt or dust.

Gloss
The level of gloss on a floor is what gives it the “wow” factor. Each gloss is chosen to enrich and feature the design image.

Low – A finish that replicates the look of oil-rubbed hardwood.

Medium – A finish used most often as the aesthetic standard for real hardwood.

High – A formal finish that shines and provides a highly reflective surface.

Armstrong Laminates Stand Apart
From embossing techniques, realistic edge designs, and line variations, to the lengths and widths of the flooring planks, Armstrong considers every aspect when developing laminate products to reflect the realism of natural hardwood. Add texture and gloss and Armstrong laminates are more distinctive than any other laminate products on the market today.
Commercial Laminate

Architectural Remnants™

Woodland Reclaim provides the look of nine reclaimed hardwoods — birch, red oak, sycamore, pine, teak, elm, ash, white oak and hickory — in 16 unique planks.

- Multiple species and multi-width planks
- 12 mm thick planks for solid wood feel and sound absorption
- Commercial VisionGuard® with AC4 wear layer
- 10-Year Commercial Warranty

Note: Each carton will contain 12 visuals randomly selected out of the 16 plank designs. When installing this multi-width product, a 5.59” wide plank MUST be used in every other row. This sequence must be followed throughout the entire installation.

New Color

Woodland Reclaim

L6626 old original wood brown

Sizes
Widths: 3.54”, 5.59”, 7.60” (90, 142, 194 mm)
Length: 47.83” (1215 mm)

Multi-width planks create a custom designed look.
Global Reclaim offers a stunning blend of reclaimed, exotic wood looks — apple, eucalyptus and maple — in 18 unique planks with dusty blush tones.

(Not all unique plank visuals are shown)

- Texture: Overall / Ends & Edges: Micro-beveled / Gloss: Low
- Multiple species
- 12 mm thick planks for solid wood feel and sound absorption
- Commercial VisionGuard® with AC4 wear layer
- 10-Year Commercial Warranty

Commercial Laminate

Trim and Molding

- Full assortment of ADA-compliant trims and moldings
- A 3-in-1 aluminum piece is offered for enhanced durability
- Refer to floorexpert.com for coordinating Quarter Round and Stair Nose

Aluminum Transitions

**Reducer**
Provides a smooth transition from laminate flooring to other lower height flooring.

**Threshold**
Finishes the space where laminate flooring ends, such as sliding glass doors, wall bases, door thresholds and carpet.

**T-Molding**
Fills the gap at doorways and finishes spaces between the two areas of laminate flooring.

Touch-Up Kits

- Colors to complement every available Armstrong laminate floor finish
- Allows you to quickly and easily restore your floor to its original beauty
- Kit includes a container of urethane to protect your repair for long-lasting durability
- Quick drying — can resume traffic on the repaired area quickly

Kit Includes:
5 Filler Sticks
2 Touch-Up Markers
1 Container of Urethane – 1/2 fl. oz. (14.78 mL)
1 Sanding Pad
1 Instruction Sheet
1 Armstrong Information Card
Commercial Laminate

Fast and Easy Installation*

Install laminate flooring quickly and easily with Lock&Fold® technology. Simply tilt one board into another and fold down to lock in place. Lock&Fold can be installed over most existing floors. No wait time is required after installation so the space can be occupied immediately.

Our Quiet Comfort™ Premium Underlayment offers superior sound absorption and a seamless moisture barrier.

*see armstrong.com/comlaminate for complete laminate installation instructions

*When Summit trowel is used

**Adhesives**

**EverSeal Flooring Adhesive**
- Strong water-resistant bond between tongue and groove
- Easy cleanup
- Spread rate: 1/8” bead up to 100 sq. ft./16 oz. bottle; 3/32” bead up to 150 sq. ft./16 oz. bottle

**Summit All-in-One Adhesive**
- Sound diminisher, moisture barrier and crack isolation membrane*
- Easy cleanup with modified silane formula
- Spread rate: 50-60 sq. ft./gal. for wood, 70-80 sq. ft./gal. for parquet and 30-35 sq. ft./gal. for all in one application (Summit trowel included with adhesive)
- Open time: None
- Working time: 50 minutes

*When Summit trowel is used

**ProConnect Acrylic Adhesive**
- Strong initial grab
- Easy cleanup with water
- Spread rate: 50 sq. ft./gal. for engineered wood, 70 sq. ft./gal. for parquet
- Open time: 15 minutes
- Working time: 35-60 minutes

**Equalizer Urethane Adhesive**
- Moisture cured – contains no water
- Long working time
- Spread rate: 50-60 sq. ft./gal. for solid and engineered wood, 60 sq. ft./gal. for parquet
- Open time: None
- Working time: 45-60 minutes

*When Summit trowel is used

**Easy Maintenance**
Maintaining your laminate floor is easy and simple to do. Just sweep or vacuum as needed. Clean regularly with Armstrong® Hardwood & Laminate Floor Cleaner.

1. Overall and wear layer thicknesses are nominal and subject to normal manufacturing variances.
2. Subjective ratings (Excellent, Very Good, Good, Fair) are in relation to other Armstrong® commercial resilient floors. Ratings are not directly related to any one test. They are broadly based on tests and experience of Armstrong R & D under varying conditions and circumstances. These ratings should NOT be used for comparison to ratings used by other manufacturers to rank their own products.
3. Reference Specifications: Armstrong products are manufactured to meet or exceed specification requirements.
4. Numerical flammability ratings alone may not define product performance under actual fire conditions. These ratings are provided only for use in the selection of products to meet specified limits.

Premium Lustre
4.92 in. x 47.76 in. (125 mm x 1213 mm)

4.92 in. x 47.76 in. (125 mm x 1213 mm)

Gauge (nominal thickness)
0.47 in. (12 mm)

Wear Layer (AC Rating)
AC4: Architectural Remnants; Coastal Living Patina; Rustics Premium
AC5: Premium Lustre; Premium

Limitations
Armstrong Laminate Flooring should not be used in areas where excessive subfloor moisture and/or surface water is present. In produce areas, commercial kitchens, commercial food processing areas; locker rooms with shower facilities, operating rooms, industrial areas, exterior areas or where pointed spikes such as golf or track shoes will be used. Transition T-molding required in doorways and rooms larger than 60” in plank length and 52” in plank width.

Suitable for Application Over
Fully cured concrete, marble, stone, terrazzo, vinyl, or wood.

Unsuitable for Application Over
Surface dirt, grit, grease or high heel marks should be addressed prior to application. Light commercial floor traffic: Sweep, dust mop or vacuum your floor on a frequent basis. Do not use mops with all treated cloths. Regularly clean your floor with Armstrong Hardwood & Laminate Floor Cleaner. Do not allow excess cleaner to remain on the floor surface as excess will damage the flooring.

Comparative Subjective Property Ratings
Durability: Excellent
Maintainability: Excellent
Subjective ratings (excellent, very good, good, fair) are in relation to other Armstrong commercial resilient floors. Ratings are not directly related to any one test. They are broadly based on tests and experience of Armstrong Research and Development under varying conditions and circumstances. These ratings should not be used for comparison to ratings used by other manufacturers to rank their own products.

Light Commercial/Floors Traffic:
Sweep, dust mop or vacuum your floor on a frequent basis. Do not use mops with all treated cloths. Regularly clean your floor with Armstrong Hardwood & Laminate Floor Cleaner. Do not allow excess cleaner to remain on the floor surface as excess will damage the flooring.

Surface dirt, grime, grease or high heel marks should be addressed immediately.

WARRANTIES
Armstrong warrants its regular (first quality) commercial floors and wall coverings to be free from manufacturing defects and warrants the installation integrity for applicable products and years from the date of purchase, if installed according to the installation and maintenance instructions at armstrong.com. This warranty extends only to the original end-user. See Armstrong Commercial Floor Warranty at armstrong.com for warranty details, limitations and exclusions.

Architectural Remnants, Coastal Living Patina, Rustics Premium: 10 years

INSTALLATION
Job Conditions
Subfloor/underlayments shall be dry, clean and smooth. They shall be free from paint, varnish, salvarsan, wax, oil, existing adhesive residue, or other foreign matter. For more detailed requirements of concrete, wood and metal subfloors, as well as wood and trowelable underlayments, refer to the installation instructions at armstrong.com.

Moisture testing must be performed on all concrete slabs regardless of their age or grade level. Moisture Vapor Emission Rate (MVER) using Calcium Chloride (ASTM F 1869) and/or percent relative humidity (ASTM F 2170) tests must be conducted.

NOTE: To minimize pattern repeats in the floor and maximize aesthetics, you must pull product from at least three different cartons during installation.
