# Proven Performance

---

Manufactured in Stillwater, Oklahoma, with Diamond 10 Technology, Zenscape is engineered to stand up to the wear and tear of commercial settings.

- A low maintenance solution – no polishing, stripping, or restorative maintenance required
- Provides enhanced traction for an added measure of safety where it matters most – achieves R10 Rating per standard DIN EN 16165
- Features reinforced calendared layers for protection from rips, tears, and gouges
- Protects against scratches, stains, and scuffs for floors that look newer, longer

Zenscape is available in multiple widths – 6, 9, and 12-foot rolls – to provide installation and design flexibility. Larger roll widths can reduce the number of seams in corridors, under patient beds, and in large open areas.
