

Floor to Wall, Seamless Design

Our Luxury Vinyl Tile (LVT) is designed for Floors and Walls. With our wide range of sizes and designs, you can be creative! Mix and match across our portfolio to bring your vision to life – whether it's the warmth of wood, the texture of stone or woven textiles. We've got the performance and style.

Our LVT meets the highest level of fire resistance **without the use of flame retardants or other hazardous additives** and can be used on vertical surfaces for low flame spread and minimal smoke.

| Performance | Test Method | Requirement | Performance vs. Requirement |
|---------------------------------|-------------|---------------|-----------------------------|
| Fire Test Data - Steiner Tunnel | ASTM E84 | Use Dependent | Class A |

S-730 Wall and Wall Base Adhesive is required to meet Class A performance. This also provides an enhanced warranty

Approved LVT and Adhesives:
