

WELL Building Standard® Contribution

Armstrong Flooring solutions can help today's green buildings be more resource efficient, and safer, healthier places to work. The below information demonstrates how Armstrong Flooring products contribute to the WELL Building Standard®.

AIR	
FEATURE	FEATURE INTENT AND CONTRIBUTION
<p>FEATURE 04: VOC Reduction PART 2: Interior Adhesives and Sealants</p> 	<p>The VOC content of all newly applied adhesives and sealants must meet all limits set by the following, as applicable:</p> <ul style="list-style-type: none"> a. California Department of Public Health (CDPH) Standard Method v1.1-2010. 1 b. South Coast Air Quality Management District (SCAQMD) Rule 1168, June 2005. <p>Armstrong Flooring adhesives are tested and compliant with the California Department of Public Health Standard Test Method (CDPH v1.1) and most are third party certified by FloorScore® to comply with this standard. Learn more</p> <p>In addition, all of Armstrong Flooring adhesives comply with the SCAQMD Rule # 1168</p>
<p>FEATURE 04: VOC Reduction PART 3: Flooring</p> 	<p>The VOC content of all newly installed flooring must meet all limits set by the following, as applicable:</p> <ul style="list-style-type: none"> a. California Department of Public Health (CDPH) Standard Method v1.1-2010. <p>Armstrong Flooring flooring products are tested and compliant with the California Department of Public Health Standard Test Method (CDPH v1.1) and most are third party certified by FloorScore® to comply with this standard. Learn more</p>
<p>FEATURE 11: Fundamental Material Safety PART 1: Asbestos and Lead</p>	<p>All newly-installed building materials contain no asbestos and no more than 100 ppm (by weight) added lead.</p> <p>Armstrong Flooring products meet these requirements</p>
<p>FEATURE 25: Toxic Material Reduction PART 1: Flame Retardant Limitation</p>	<p>Halogenated flame retardants are limited in the following components to 0.01% (100 ppm) to the extent allowable by local code:</p> <ul style="list-style-type: none"> b. Flooring, ceiling tiles and wall coverings <p>Armstrong Flooring products do not contain halogenated flame retardants.</p>
<p>FEATURE 25: Toxic Material Reduction PART 2: Phthalate (plasticizers) Limitation</p>	<p>DEHP, DBP, BBP, DINP, DIDP or DNOP [often found in polyvinyl chloride (PVC)] are limited in the following components to 0.01% (100 ppm):</p> <ul style="list-style-type: none"> a. Flooring, including resilient and hard surface flooring and carpet. <p>Armstrong Flooring offers many ortho-phthalate free products that can contribute towards this feature.</p>
<p>FEATURE 28 Cleanable Environmental PART 2: Cleanability</p>	<p>The following requirements are met:</p> <ul style="list-style-type: none"> a. No permanent wall-to-wall carpeting is used; only removable rugs, removable carpet tiles or hard surfaces are allowed. <p>Armstrong Flooring offer many hard surface flooring options. In addition, Armstrong Flooring has adhesive free installation systems including floating and releasable options such as – Iset® Installation system which makes installation and removal extremely easy.</p>

MIND	
CONCEPT	FEATURE INTENT AND CONTRIBUTION
FEATURE 88 Biophilia I – Qualitative	<p>Creating an interior environment that nurtures the innate human-nature connection. Provide a plan which address 3 parts: Nature Incorporation, Pattern Incorporation and Nature Interaction.</p> <p>Armstrong offers flooring derived from natural materials such as solid hardwood flooring as well as patterns with nature inspired designs.</p> <p>Learn more</p>
FEATURE 97 Material Transparency PART 1: Material Information	<p>At least 50% (as measured by dollar value) of interior finishes and finish materials, furnishings (including workstations) and built-in furniture have one of the following material descriptions:</p> <ul style="list-style-type: none"> a. Declare Label. b. Health Product Declaration. c. Any method accepted in LEED v4 MR credit’s “Building product disclosure and optimization - material ingredients” credit, Option 1: material ingredient reporting. <p>Armstrong provides materials ingredients consistent with LEED v4, Material Ingredients Reporting.</p> <p>Learn more</p>
FEATURE 97 Material Transparency PART 2: Accessible Information	<p>The following condition is met:</p> <p>All declaration information is compiled and made readily available to occupants either digitally or as part of a printed manual.</p> <p>Armstrong provides materials ingredients consistent with LEED v4, Material Ingredients Reporting on our website. Learn more</p>
FEATURE 99 Beauty and Design II PART 3: Spatial Familiarity	<p>Artwork can be used to establish wayfinding, aid in orientation and provide spatial familiarity. The following requirements are met:</p> <ul style="list-style-type: none"> b. Single regularly occupied spaces >4000 ft² are visually grouped into 2 or more zones through the use of at least 2 or 3 of the following unifying design elements: (i) lighting, (ii) furniture color and (iii) flooring pattern/color. <p>Armstrong flooring can used to establish wayfinding, aid in orientation and provide spatial familiarity</p>
