WHAT DOES 100% WATERPROOF MEAN?
When exposed to water, PRYZM™ planks are waterproof and will not swell, buckle or lose integrity. If exposure to water occurs, all PRYZM™ flooring installation systems (ArmLock™ installation, full-spread adhesive and locking) will continue to create a secure bond. In the case of standing water or flooding, PRYZM™ flooring will not act as a waterproofing barrier for the subfloor and/or any surrounding structure. Any damage to the subfloor and/or surrounding structure that is caused by standing water or flooding is not covered by this warranty.

WHAT NOT COVERED BY THIS LIMITED WARRANTY?
• Damage caused by fire, flooding, or intentional abuse.
• Damage caused by moisture to surrounding structure, walls, subfloor, fixtures, furniture, underlayment, moldings, trims, subfloor heating elements, or anything that is not the structural integrity or dimensional stability of the floor plank or tile.
• Damage to the cork resulting from mold and mildew growth due to prolonged exposure to moisture. While moisture will not affect the structure of the plank or tile, when excessive moisture accumulates (and in particular remains undiscovered or unaddressed) mold and/or mildew growth can occur.
• Flooring that is installed outdoors.
• Damage caused by vacuum cleaner beater bar, rolling caster wheels, and cutting from sharp objects.
• When vacuuming, we recommend using the wand attachment on your vacuum.
• Loss of gloss/scratching.

• Construction or installation-related damage - including installation defects due to installations not using the recommended Armstrong Flooring products.
• Armstrong Flooring will not pay labor costs to repair or replace material with defects that were apparent before or at the time of installation.
• Failure of the floor to adhere to the subfloor as per our installation instructions due to, for example, moisture, alkali or hydrostatic pressure from the subfloor.
• A product deformity that is not measurable or that is visible only under certain light or from a certain angle is not considered a defect and is therefore not covered by these warranties. Visible defects should be evaluated by their visibility from a standing position in normal lighting.
• Improper care and maintenance (see our Care instructions), inappropriate end-user activities.
• Non-intended Commercial Applications:
  – Anywhere commercial cleaning machines will be used
  – Assisted-Living
  – Large commercial applications (education/institutional, hospitality, large retail, office, hospitality) – over 3,000 sq ft

CARE INSTRUCTIONS
To keep the lasting shine and fresh feel of your investment for as long as possible, we recommend that you:

Do
- Wipe up spills as soon as possible. Never use highly abrasive scrubbing tools on any resilient floor.
- Sweep or vacuum using the wand attachment, then follow with the Armstrong Flooring recommended floor care products. Armstrong Hardwood and Laminate Cleaning System kit (S-304) contains a swivel head mop, washable mop cover, and an Armstrong Hardwood and Laminate Floor Cleaner (S-302) spray bottle.
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home.
- For other stains, please call Armstrong Flooring Customer Relations and Technical Services, at 1 800 233 3823.
- For any spills, please call Armstrong Flooring Customer Relations and Technical Services, at 1 800 233 3823.

Don’t
- Use detergents, abrasive cleaners or “mop and shine” products – they may leave a dull film on your floor.
- Use paste wax or solvent-based polishes.
- Use rolling casters as they can damage the floor.
- Use a beater bar when vacuuming because it can visibly damage the floor surface.
- Use highly abrasive scrubbing tools.

Before installation
- You and your installer are responsible to inspect flooring prior to installation. We accept no responsibility for liabilities, claims, or expenses, including labor costs, where flooring with visible defects has been installed.
- Maintain a minimum room temperature between 45 and 95 degrees Fahrenheit for 48 hours before, during and after installation is completed.
- If room temperature of where PRYZM™ flooring is stored is outside of the 45 to 95 degree Fahrenheit range, then you must acclimate PRYZM for 4 hours prior to installation.

Immediately after installation
- Maintain room temperatures between 45° F (°C) and 95°F (°C) thereafter.
- We recommend that you do not scrub or wash your floor for five days.

Proactive protection for your floor
- Place a walk-off mat at outside entrances to reduce the amount of dirt brought into your home.
- When moving appliances or heavy furniture, lay a plywood panel on your floor and “walk” the item across it. This protects your floor from scuffing and tears.
- For added indentation resistance, use Armstrong® floor protectors on chairs and other furniture. The heavier the item, the wider the floor protector should be.
